Seed Hub Distribution

Ask folx to sign up and share what information they feel comfortable with. You, and any participants, are invited to join CoopGardens efforts in Seed Distribution. This includes how data is collected and managed. The food stamps question is part of a USDA grant intended to get food to historically underserved communities. Listed here to help communities build accountability record, with the intent of helping these communities get the food funds are being distributed for.

Name	# of people to feed	Zipcode/Neighborhood	Will you estimate food grown over the season?	Are you receiving food stamps or aid for food? (optional)

Assessing the Situation

Track the zipcode & neighborhood you are in, your wisdom of your area, and gleaned wisdom shared from others.

Strengths

Where can you grow food? Soil health, water access, number of people that can help, qualifying circumstances that increase grant eligablity, ...

Weaknesses/Barriers to Access

Food storage, season length, access to resources, land, water, tools, knowledge,
Map environmental factors EJ Screen
You don't have to inuput any more info on the Map tool than a Zipcode or address, note your findings here and/or save a report for reference. Certifications/Insurance needed if selling produce...

Opportunities

Network connections to partner orgs, funding is there for food sales, training available, land trusts...

Threats

Burnout, COVID, negative community dynamics, racism, extreme weather...

Seed Hub Tracking & Budget

Track costs of redistributing and bundling seeds. Items can include seed envelopes, printing, food for volunteers, phone bill, mileage involved in redistrung, and postage if applicable.
